Fuel Management An Overview

Effective fuel management for your business

Managing fuel is a critical and often costly part of looking after a fleet. That's where Toyota Fleet Management New Zealand (TFM) can help – with a market-leading solution.

How does it work?

We aim to be your true partner in achieving greater fleet efficiency. With our Z Business Partner Offer, you'll receive great fuel discounts off the pump price. It's just a smarter way to manage your fuel.

Z Business Partner Offer

The Z business card fuel programme is recommended for:

- Large corporate and government fleets in diverse locations
- Small to medium-sized businesses

Features:

- Enjoy 8 cents off the pump price on every fuel grade at any Z service stations, Caltex and Challenge service stations.
- Earn Fly Buys Points or Airpoints Dollars by linking your Z Card account to your Fly Buys or Airpoints number.
- Access to 550 service stations and truck stops throughout NZ.
- Available on all vehicles for qualifying customers, whether financed by us or not, including other vehicle makes that are part of your business fleet.

Benefits:

- Save with discounts on fuel
- No transaction fees, card replacement fees or ongoing monthly fee
- Access one of the largest networks across New Zealand
- Online account management
- Control fuel purchases and prevent fraudulent transactions through real-time purchase restrictions.

Like to find out more?

For more information on TFM Fuel Management, contact your TFM Relationship Manager, a certified Toyota Dealer or call us on **0508 46 86 96**.

What else does it offer?

To get a clear overview of your fleet's activity, odometer readings are collected at the time of each fill.

This forms the basis of TFM's comprehensive reporting available on ToyotaFleet Online – a powerful tool that will save you substantial time and costs. Reporting includes:

- Notification of vehicles due/overdue for service
- Tracking and reporting of vehicle usage against agreed kilometre allowance

In addition to reporting through ToyotaFleet Online, this also extends across to:

- FBT management and reporting
- Fuel transactions by business unit, cost centre and vehicle
