Fleet Management Services Overview

Fleet management capability

A comprehensive range of services at your disposal

Toyota Fleet Management New Zealand (TFM) provides a range of options to look after your vehicle requirements, giving you more time to focus on your core business activities.

Whether you own your vehicles or finance through one of TFM's funding options,* there is a complete suite of fleet management services at your disposal.

How does it work?

In accessing Toyota's strong buying power, we are confident TFM will add value to your business. Get a package tailored to suit your unique business needs, from asset finance right through to all-inclusive fleet management.

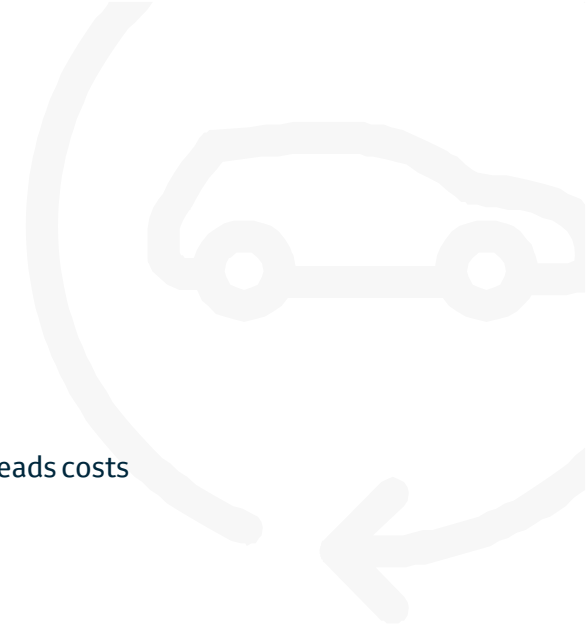

Services:

- A full suite of real-time online reporting
- Vehicle acquisition and disposal
- Maintenance control service
- Tyre management
- Fuel management and cards
- Registration renewals
- TFM roadside assist
- Infringement management
- Fleet policy analysis and advice
- Fleet performance analysis and reporting
- FBT analysis and reporting
- Relief vehicles.

Benefits:

- Reduce overall administration and overheads costs
- Manage your fleet efficiently
- Monitor and Analyse your fleet
- Accurate view of 'whole-of-life' costs
- Benchmark your fleet against fleets of a similar size within TFM's portfolio
- In-depth annual reviews to ensure your fleet is operating efficiently
